

UNITCARGO CORONA ANNOUNCEMENT

Dear customers and partners of UnitCargo,

Corona has a big impact on all of us. But Logistics is more important than ever for people and their countries. Borders are open for trucks and truck drivers. In Austria, the weekend driving ban is temporary lifted. UnitCargo has prepared, in Vienna and all our 6 branch offices in Europe, measures to secure the supply chains for us and our customers. We have divided our teams partly in home offices and in our base offices to secure the information and process flow. We have thought about worst case scenarios in which we are still able to secure your supply chain. In these days, we are very challenged with the big demand on the market and the waiting times on the borders. We hope you will have enough understanding for these exceptional conditions. Rely on us, as we are prepared:

-  From March 16th, our employees are sent to work from home offices
-  Meetings can be arranged via Skype
-  Your contact persons are available via mobile number from the email signature, all calls in office of our employees are forwarded to their own mobile phones and if you need someone's specific number, please, call our head office (+43 1 577 25 03) as we have an employee there for emergency calls

We ask for your understanding and thank you for your cooperation.
We can do it and we will get through it!

With orange regards,
